

X-Press It®

Deco Foil Kit Birthday Bottle

Release your creativity & make your own unique party decoration!

What You'll Need

- X-Press It Party Deco Foil Kit
- Bottle
- Scissors

Also available in Tropical, Unicorn & Love

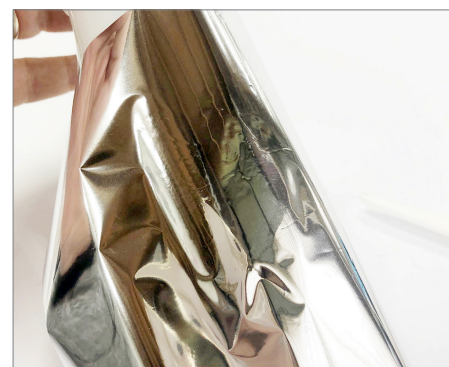

Step 1:

Cut out the adhesive image you wish to use. Make sure the surface where you apply the image is clean, flat, smooth and dry.

Step 2:

Remove the clear liner from the adhesive image. Place the image onto your selected surface holding the image firmly in place. Using the enclosed rubbing stick, firmly rub the adhesive image onto the surface. Once all areas have been rubbed firmly, remove the clear plastic backing. Your adhesive image will have transferred onto the surface.

Step 3:

Select your foil colour and place the foil over the adhesive image with the glossy coloured side face up. Place the clear plastic liner over your foil to keep it flat. Rub the foil firmly over the entire adhesive area using the rubbing stick.

Step 4:

Remove the foil slowly. The foil will have now been applied to your adhesive transfer.

Step 5:

Your birthday bottle project is now complete! Hip Hip Hooray!
