

PROJECT SHEET

X-Press It®

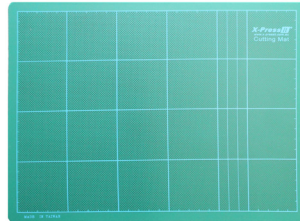

Twinkly New Year Balloons

STEP BY STEP

WHAT YOU'LL NEED

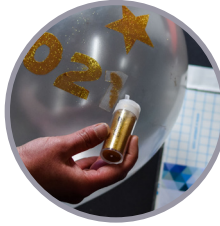

- X-Press It Adhesive Sheets
- X-Press It Glitter
- X-Press Cutting Mat
- Cutting Knife
- Print out of the numbers 2021
- Balloon
- Sticky Tape

INSTRUCTIONS

Step 1: Print out the numbers 2021 in your desired type face and size. Note: Using a block type face will be easier to cut out. Place your print out on-top of the X-Press it adhesive sheet and secure down with sticky tape on the corners of the print out. Carefully cut around the numbers using your cutting knife.

Step 3: Once you have your numbers stuck onto your balloon, peel of the front release liner. Using your X-Press It Glitter, cover the now exposed adhesive side of your numbers with glitter. We also decided to create some stars, to add some extra twinkle.

Step 2: Inflate your balloon. Once you have cut out your numbers, carefully peel back the back liner and stick the numbers onto your inflated balloon.

Step 4: Your celebratory New Years balloon is all finished! Your balloon will make a fabulous feature decoration for any celebration. Wishing you a safe and happy New Year!
