Step 1: Measure the sides of your cardboard boxes. Then measure, mark and cut the sizes you require on the sticky barc sheets.

Step 3: We repeated step 1 and 2 using smaller boxes that fit inside the larger shoe box to create dividing compartments to organise a variety of different items.

Step 2: Peel off the backing sheet of the sticky barc and place onto your cardboard box.

Step 4: Once you have completed your dividers, fill the remaining spaces. Now your super trendy organiser is completed and ready for the new school year!
