

# Pen Holder

## STEP BY STEP

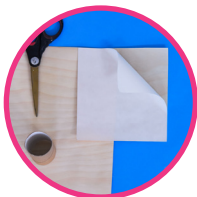

### WHAT YOU'LL NEED

- X-Press It Sticky Barc
- X-Press It Triple Tac
- Scissors
- Toilet Roll

### INSTRUCTIONS

**Step 1:** Measure your sticky barc against your toilet roll to figure out how much to cut. Make sure you have enough to wrap around your roll and about 2cm extra on the top and bottom to fold over.

**Step 2:** Peel off the backing sheet and place your roll down (make sure to place it so that when you wrap it around your roll you're wrapping with the grain and not against it) Wrap the sticky bark around your roll, ensuring a slight overwrap.

Self-adhesive wood sheets

**Step 3:** Cut small slits on the top and bottom and fold over inside the roll so you have a nice edge.

**Step 4:** Once you have folded over all your edges, use X-Press It Triple Tac glue to stick all your finished toilet rolls together. Wait 24 hours to dry and wallah! You have a fun new pen holder!
