

X-Press It®

PROJECT SHEET

Place cards

STEP BY STEP

WHAT YOU'LL NEED

- X-Press Glue Marker
- X-Press It Metal Leaf
- Paint Brush
- Card

INSTRUCTIONS

Step 1: Using the X-Press It Glue Marker, write your name. We also added some dots around the boarder of the card for some extra decoration.

Step 3: Once covered with Metal Leaf, use a clean, soft brush to dust off the excess leaf softly.

Step 2: Delicately place X-Press It Metal Leaf onto the area where you have applied the glue to. (You can use tweezers or your fingers to do this).

Step 4: Get creative and create some personalised place cards for your guests to take home. Or these can also be used as extra sparkly gift tags.
